REMINDER: The Center's sickness policy is as follows: Children are required to be symptom free, without fever reducing medication for 24 hours when they have been sent home ill. Children sent home due to illness must remain home the following day. Please help us reduce the amount of germs by adhering to our policy—Thanks!

***Croup** - Swelling around the vocal cords typically caused by a virus and features a “barking” cough.

****Strep throat** is caused by Group A *Streptococcus* bacteria. It is the most common bacterial infection of the throat.

*****Head Lice** – Child must be checked by a staff member and certified “nit and lice free” before returning to our care.

Please contact the office to schedule a “head check” for readmission to school.

❖ Suspected case reported on 5/6/19 but was not a confirmed case.
